WORDS FROM DR. R.N. MOKOENA (ACTING HOSPITAL MANAGER) TO ALL CEZA HOSPITAL STAFF...

Year 2005 has been a very challenging year due to the continuous revitalization of the institution and that includes:

◇ HUMAN RESOURCE

We are all aware of the shortage, overworked, demotivated, "floor crossing" and the uphill challenges of recruitment of staff. This poses a big challenge since most of the hospital

budget goes into it.

◇ BUILDINGS

We all know Ceza hospital has got old structures, which requires constant face lifting.

◇ SERVICE DELIVERY

Bad working environment, poor infrastructure (bad roads) and increasing services the hospital renders. All that has a big negative outcome on service delivery.

Despite of all the challenges, we worked hard as a team to make things happen.

Ceza Hospital Management sincerely thanks you all for the commitment you have shown and **we wish you a Merry Christmas and prosperous New year.**

**GOD BLESS YOU ALL
THANK YOU.**

FAREWELL TO GROUP 11/2003

Ceza Nursing College has released two groups of students in the same year – 2005. Group 11/2003 is the second group that passed the examination in 2005.

“We first saw your applications at the Central Selection. It was just a peace of papers. We met with you face to face at the Training College; you then became our own children. We develop love for you guys. You were sent to wards and we receive good and bad reports about you. Now you are leaving Ceza to other Hospitals. Whatever you will be doing, be a good example of Ceza Nursing College” said the Nursing College Principal Mrs N.K. Mthethwa.

Oh my God!! the students were so stunning. It was such a nice and painful day where student were imitating their Nursing College Tutors and the Principal. Farewell guys be good where ever you are going...

Group 11/2003 with Mrs Ngcobo (Tutor) were so gorgeous.
