Chronic disease and eye awareness campaign

On the 25th January 2006 Zululand Health District and Ceza Hospital organized the Chronic Disease and Eye Awareness Campaign. This was the biggest campaign ever at Ceza Hospital.

The Ceza community came in numbers to hear what the health workers had to say. Four buses were organized to take the community from different areas of Ceza. Catering for the community was well organized.

Between the speeches and messages there was a lot of entertainment for senior citizens of Ceza catchment area, for example, the drama from Community Health Workers. Caps, T-shirts and bags with messages were given to the community.

Ceza Hospital would like to thank all the people who made the Chronic & Eye Awareness Campaign a success. Big thanks to Ceza Hospital Advisory Board for informing the community well done, keep it up.

Kwakukuhle kwethu...

Superb Mr Mbongeni Thabede was our programme director

Our guest speaker Mr Londa Langa (Provincial Co-Ordinator Chronic & Eye) said it all...

The head of Chronic & Eye Prof. Nurse E.N. Buthelezi at Ceza Hospital delivering her speech...

Ms. M.G. Zwane (Ass. Nursing Manager) was doing the vote of thanks

It was time for freebies; the community received bags, caps & T-shirts

Ceza hospital Advisory Board members Mr M.S. Masondo, Mr M.A. Buthelezi & Mr P.E. Buthelezi behuba ingoma

Along came a good Samaritan...

GROUP 4/2006 with their Tutors and the Principal of the Nursing school.

The group of 26 candidates benefited the following from this learnership:

- ◆ Provision of all prescribed books for the course.
- ◆ School fees which is prescribed for all students/pupil nurses pursuing any course.
- ◆ Registration i.e. registration as a student and registration for all examinations.

This is an example of KwaZulu-Natal government initiative to fight the shortage of the Registered Nurses (Professional Nurses). Here at Ceza Hospital we are still facing a serious challenge of professional Nurses. Through such initiatives we can overcome that challenge.

With no doubt this group will do their level best to pass all their exams with flying colors.

Ceza Sub campus is happy and proud to announce that they have been given an approval of the learnership from Health and Welfare Sector Education and Training Authority (HWSETA) for Bridging Course Group started in April 2006. The learnership have been offered to 26 candidates, of which it's the first time to happen at Ceza sub campus.
