OPENING OF THE ICSP ONLINE SYSTEM FOR THE ANNUAL CYCLE (2019 JANUARY INTAKE):

The Internship and Community Service Placement (ICSP) online System has opened for verification from 14h00 on 10 July 2018 and both Interns and Community Service applicants eligible for the 2019 allocation cycle are able to verify their information details in the ICSP Online system. Applicants will not be able to proceed beyond the first part of application for now, however, it is anticipated that the application for posts will open on 17 July 2019.

The purpose of this first phase is to enable applicants to confirm their information details that will allow them to simply access the application phase when it opens. Confirmation of personal information details is a requirement before continuing to the application phase, but both phases will be open from 17 July through to 7 August 2018 (23H59) when the application window will close.

All pre-registered applicants will receive an email notification them with the website url, their user name, and a link to create their password on the system. Applicants can then go online to confirm their information details.

Applicants who do not receive emails notifying them to access the system by 10H00 on Thursday 12 July 2018 should access the ICSP Info site and complete an online registration [application form](#) or contact the help desk on 0870125082.

NB. Applicants are encouraged to visit the information site on <http://icspinfo.dhmis.org> where they will be able to download the application hand boog and be guided through the application process.

Kind Regards

ICSP Team
