**COVID-19 DISEASE: Personal protective
equipment, body bags, disinfectants, alcohol-
based hand rub and digital thermometers
Specification Guidelines**

21 August 2020

Foreword

The World Health Organization (WHO) declared Covid-19 a global pandemic on 11th March 2020. The first case was diagnosed in South Africa on 5th March 2020. South Africa faces a particular challenge given the large vulnerable immunocompromised population living in overcrowded conditions.

This guideline provides guidance for developing tender specifications and procuring the required standard and quality of personal protective equipment (PPE), body bags, disinfectants, alcohol-based hand rub (ABHR) and thermometers for use during the Covid-19 pandemic. The list of PPE and disinfectants included in the guidance is according to the recommendations provided in the COVID-19 Disease: Infection Prevention and Control guidelines and therefore do not include the complete list of PPE and disinfectants. It is limited to the Covid-19 response and should not impact the routine procurement of PPE, body bags, ABHR, disinfectants, thermometers or similar products. It does not seek to replace "normal state" tender processes.

The specifications will give guidance to National Treasury for updating suggested product pricing. This should benefit the budget by reducing the number of products National Treasury needs to make emergency funds available for. Aligning prices with specifications will reduce the occurrence of over/under-paying for the products.

This guideline must be read in conjunction with the COVID-19 Disease: Infection Prevention and Control guidelines and the Practical Manual for the Implementation of the National Infection Prevention and Control Strategic Framework that provides further guidance regarding the appropriate and rational use of PPE, ABHR and disinfectants.

These guidelines will evolve as knowledge regarding strategies to address Covid-19 develop globally and in South Africa. These guidelines will therefore be updated based on emerging evidence and WHO recommendations.

Attention and reference are directed to the Preferential Procurement Policy Framework Act 5 of 2000 ("PPPFA") with specific reference to Regulation 8 (Local Production and Content) of the regulations gazetted 20 January 2017. Respirators (and the majority of PPE) are listed under "Clothing and Textiles" as a "Designated Product" for 100% local production and procurement. This means that all procurement of respirators is subject to the local content requirements of the Act and Regulation 8 of the Preferential Procurement Regulations of 2017. (Please see Appendix B for further details in this regard)

The specification list was developed through collaboration with several parties, from both private and public spheres. Reference documents used is existing tender and National Treasury specifications, IPC guidelines and WHO guidelines.

The Department would like to thank Prof Shaheen Mehtar, Dr Barry Kistnasamy, Ms Ronel Steinhobel, Ms Catherine Mbuyane, Mr Ian Van Der Merwe, Ms Dikeledi Tsabalala, Mr Aron Mokoane, Dr Deepa Maharaj, Mr Amit Raga, Ms Hasina Subedar, Mr Harald Harvey, Ms Koketso Tlhabanelo, Mr Wayne Ramkrishna, Ms Briette du Toit and Ms Jessica Osler who drafted the guideline and gave inputs to the specifications. The department would also like to thank Mahendra Shunmoogam of the DTIC, who coordinated inputs from Industry, Organised labour working in the medical textiles and masks workstreams. (Please continue to the next page)

I express special appreciation to the PPE Coordinators in provincial department of health who reviewed the guideline and provided insightful comments and direction.
