## **PART A: FILING SYSTEM REQUIREMENTS AND SPECIFICATIONS**

### ***Pre-installation activities***

The Health Systems Trust will work together with the Department of Health to prepare district Primary Health Care facilities for installation of bulk filing cabinets. Activities will include identification of a well suited room for filing, as well as determining those facilities that are ready for filing cabinet installation e.g. in terms of infrastructure.

The contracted supplier/s will then visit those facilities identified as ready and will be accompanied by a representative from the Health Systems Trust. During the facility visit, the supplier/s will measure the space earmarked for filing purposes in each facility to determine the number of bays and whether this space is suitable indeed. The facility visit will ensure that the installation of the required filing cabinets is done in the best suited and secure space within the facility.

### ***Installation***

The supplier/s will provide the Health Systems Trust with quotes per facility, following the facility visits. This will include the price on the filing cabinet, based on the number of bays, as well as the additional delivery cost. The assumption is that installation will be included in the price of the filing cabinets. Once the quotes are approved, the supplier/s will be issued with a purchase order.

The supplier will be responsible for proper installation of the bulk filing cabinets at health facilities. The Health Systems Trust's district coordinator, the Supplier and a Department of Health representative from infrastructure and/or asset management unit will be responsible to perform inspection of the installed filing equipment to ascertain the quality of cabinets installed and to ensure that the installation of the required cabinets is done professionally and set standards have been adhere to.

Inspection will be conducted within 1 week of installation and the delivery note need to be signed by the representative from the Department of Health. This then need to be submitted with the invoice to the Health Systems Trust that will release payment within two weeks.

### ***Requirements and specifications***

Bulk filling cabinets should meet the following requirements and specifications;

- Each bay should have six (6) shelves ie: 7 rows of filing space per bay
- Each Bay: Height: 2200mm, Width: 1100mm, Depth: 400mm
- Metal A4 index plate on the side of the Unit
- The Units should be made up of solid metal to add to stability
- All Units to be SABS approved
- Cabinets to carry warranty of minimum 5 years
- Units should be with a floor mounted rail system
- Floor mounted rail system should have levelling ferrules to eliminate any 'creeping'
- A walkway of 800mm to allow easy access to folders
- Cabinets should have central locking

**Figure: Example of a bulk filing cabinet specified above**

### ***Geographical area***

A further two districts in KwaZulu-Natal namely uMzinyathi and uMgungundlovu still need to be confirmed. The number of facilities where filing cabinets will be installed is currently an estimated 300 facilities. These facilities however need to be ready in terms of infrastructure and space; meaning that the readiness of these facilities will be a determining factor on the number of facilities that will ultimately receive bulk filing cabinets.
