PROVINCE OF KWAZULU-NATAL DEPARTMENT OF HEALTH ZULULAND DISTRICT

SIX MONTHS CONTRACT FOR SEPTIC TANKS SEWER REMOVAL AT EDUMBE CHC AND CLINICS

TECHNICAL SPECIFICATIONS

1. TECHNICAL SPECIFICATION (To be read in conjunction with plan and priced accordingly.)

1.1 GENERAL

This TECHNICAL SPECIFICATION shall be read in conjunction with all other sections of the SPECIFICATION and cognisance shall be taken of the clauses relevant to this particular work, whether any specific clauses are referred to or not.

2. SCOPE OF WORK

1. The removal of sewer from septic tank per call out by department official (Maintenance Division only).
2. The contractor to steer with the rod before sucking to avoid build up at the base of septic tank.
3. The contractor to ensure that the waste is disposed to the Accredited District Municipality Site and approved by National Environmental Management Waste Act of 2008.
4. The certificate of dumping the waste to be produced together with the invoice.
5. The sucking to be done in the presence of the Departmental official.
6. The Contractor to have clinic stamp indicating the day on which the clinic septic tank sewer was removed.
7. The duration of the contract is six months on a per call out basis.

3. Minimum Requirements

- a) The contractor with CIDB grading 1 SO or above, registered with Waste Water Local Municipality to undertake the type of work for sewer waste removal as per Act no: 59 Of 2008, proof to be submitted with bid documents.
- b) The contractor must possess a valid Road Haulage Certificate which permits domestic effluent transportation and disposal services by any official municipal Water and Sanitation Services proof to be submitted with bid documents.
- c) Suitable size of truck must be utilised bearing in mind the capacity of septic tanks indicated under schedule of rates.
- d) The truck must be in possession of a valid Weigh Bridge Certificate proof to be submitted with bid documents.
- e) The first load of sewer to be certified at the Weigh Bridge for load capacity confirmation.
- f) Every load disposed must come with disposal certificate from suitable approved disposal site.
- g) All septic tank sewer to be removed until they are empty, the contractor is subject to do multiple trips from the clinics to the land refill site to dispose off the sewer effluent removed until the client is satisfied that the sewer effluent is completely removed.
- h) The contractor must have experience to similar work and at least one valid and stamped Completion Certificate/Final Delivery Certificate (with official letter head) from any of Department of Health institutions must be submitted with bid documents.
- i) The contractor is liable for contractual obligation even if a subcontract is utilised.
- j) The truck must be fully labelled/marked with all needed information indicating the type of work it is used for.
- k) Contractor to provide their staff with adequate PPE to prevent risk of infections.
- l) Contractor to submit safety data sheet with regards to desludging of septic tanks and any accident that may occur during sewer removal process.
- m) The contractor to respond within 48 hours of being called for sewer removal, failure of which 5% penalties will apply.
- n) Contractor to be within the radius of at least 50km from Edumbe CHC.
