The Late Untunjambili Hospital CEO's spirit still Leaves

The Untunjambili Hospital had an unusual visit by the Messiah's. The 24th of February 2018 was a very shiny day for the Hospital when they had visitors all the way from Norway, friends of late Untunjambili Superintendent in 1960s' who was known as Matron Doris Nelson

The news of the visit came to the Hospital through the Hospital Board Chairperson who got the information from the Community member who is always in contact with the Nelson family, Mr. J. Makhoba.

Late Matron Doris Nelson who was the Hospital Superintendent

First left: Dr. Hildergun Hodne Ullveitmoe (Retired Psychiatrist

Two in the Middle: Mrs Pamela Nel & Mr. Michael Nel

Last 4th: Ms. Solveig Otte

The Friends of Matron Doris Nelson came to the hospital to give the donation of R5000.00 in the name of the late Nelson. They said Matron worked in the Hospital when there was no electricity and water.

She had passion to change people's life until she managed to get the resources like electricity and water. She was explained as somebody who was a go getter, who loved patients unconditional. The Matron left the hospital to Canada hoping to come back as a qualified Doctor and serve the community of Untunjambili, unfortunately by the time she came back she was older than the acceptable age. The guests was received by Mr N.M. Nene (Board Chairperson), and the Board Members, Former Acting District Director Mrs N.E. Hlophe, Ms P.S. Xongwana (Acting CEO), Mrs B. Zulu (District Communication Assistant Manager) , Lutheran Church Board Members and Untunjambili Hospital Management.

The Untunjambili Nurses Choir gave a nice Zulu song that made everybody

to dance, even the Guests who could not understand nor speak IsiZulu enjoyed themselves.

The Management of Untunjambili is so grateful that the Hospital had such Heroine like Matron Nelson.

Untunjambili hospital took the initiative of visiting Vusisizwe and raise the scabies awareness

Scabies out break campaign led by Sister T.E Ndaba and School health team

Untunjambili hospital took the initiative of visiting Vusisizwe Primary School to raise awareness regarding scabies. The campaign took place on 20 June 2018 led by Sr. T.E Ndaba and School Health Team.

Key stages of scabies

- Prodrome
- Swelling
- Prevention

The main focus was to educate parents and learners on how to prevent and treat scabies.

The T.B. Assistant S.G Mkhize (Below Right hand side picture) conducted health education to Learners and parents on how scabies is treated and prevented.

UNTUNJAMBILI GATWAY CLINIC OM T.E. NDABA

The definition

- ⇒ **Scabies definition** : scabies is caused by mites that burrow under the upper layer of human skin feeding on blood and laying eggs
- ◇ **Stage 1 is Prodrome** : **Prodrome** is a primary stage where the virus becomes active in the skin, constantly moving forward the surface of the skin
- ◇ After a day or two days skin becomes irritated: **Stage 2 is inflammation and swelling**, it is also unnoticeable to Learners that they are infected, so parents were advised to act fast when they notice inflammation and swelling.
- ◇ **Stage 3 Prevention** To prevent scabies infection from spreading to other people, clean all clothes and linen. Use hot soapy water to wash all clothes, towels used within three days before beginning treatment, dry with high heat.

The Campaign was being supported by the Gateway OM T.E. Ndaba (on the above right hand side)

UNTUNJAMBILI REHOBOTH MENS FORUM/ISIBAYA SAMADODA

Untunjambili Community hosted the Rehoboth Men's forum on the 27th April 2018, and had worked hand in hand with Untunjambili Hospital. The Forum was explained as a manual group of Young Adult Men of Untunjambili Area and the event took place right in Untunjambili Community Hall. The Forum was formed to make sure that Young Men are updated with relevant information.

The main purpose was to cascade the information that has been a stone in the eye to all South Africans, and put men on board that the women and children abuse should stop. The Rehoboth forum was attended by more than 500 people including the Health Workers who were rendering services to the community.

People and companies who contributed a lot in this movement

The Untunjambili Hospital Chairperson Mr N. Nene also known as Minister of Finance advised the Community to practice **4 Ps** which He explained as follows: **The 1st P was Principle:** Men should practical lead by example to the Community, sticking to the principles, **2nd P was Play:** If young

men can engage themselves playing sports, involving themselves in positive activities, that will improve the Team spirit at all levels e.g. Community protection, economically growth, academic standard etc., **3rd P was Presence:** Presence of the Man in each household is very important, and has been proven that families are struggling without the guidance of the man.

Gift of the givers also played a huge role on the day

Gift of the Givers donated wheelchairs to all physically challenged clients in the community and Siyabonga provided with meals for the day
Everyone who attended the forum the received some tokens

THE CUTTING EDGE REGARDING THE KILLING OF THE DEPARTMENT OF HEALTH EMPLOYEES

The KZN- Minister of Health Dr. S. Dhlomo visited one of the hospitals in KZN on 15 May 2018, after he had noticed the increasing number of death in the Department of Health. In his talk, he advised workers that they must never commit and stay in a relationship that is abusive, because most educated women and very useful to our community are being murdered by people they love.

The Minister also touched this topic in the MASEA Awards that took place at Durban ICC on the 9th June 2018. He mentioned that this matter of the DOH employed women being killed by their loved ones has raised the number to 40 this year.

He advised Employees to disclose these painful acts of abuse, because most Women keep quiet thinking that the abuse will come to an end, but it is unfortunate that they only come out of those relationships dead and this has a negative impact in the DOH. The women that are murdered are educated and trusted by the Department.

The Untunjambili Hospital has taken an initiative to pass this information to the staff because some do not know how to get out from the relationship of that nature.

If your colleague or you find yourself in this situation you must take a stand and report it for your own safety, and think about people who care about you and need you in their lives e.g. your children, family, patients and friends that will struggle living when you are gone forever. Think about the DOH who has done it all to upgrade your academic skills.

This advice is meant to equip you with knowledge on how to prevent yourself from being a victim” make sure you do not allow other people to take advantage of you”

DO NOT ALLOW ABUSERS TO RUIN YOUR LIFE

- ◆ The Department of Health has made sure that there are qualified staff members to assist you in each facility .
- ◆ Visit the Office of the Employee Assistant Practitioner (EAP) within the facility
- ◆ Be smart enough to see the signs and symptoms of abuse at an early stage from your partner .
- ◆ Make a smart decision/ choice.
- ◆ Choose yourself and never compromise your life to someone who is in a relationship to abuse you .
- ◆ Remember you are not a coward but you are just taking care of yourself.

MR Z.M. BUTHELEZI
(ADMIN CLERK)

MAY THEIR SOUL REST IN PEACE/ UMPHEFUMULO WABO AWUPHUMULE NGOKUTHULA

The Untunjambili Hospital had been experiencing the difficult time for the past two months May and June 2018, whereby they lost 3 staff members from different Components. The hospital has lost Miss Angingedwa Buhle Mthembu who used to work as a Pharmacy Clerk. The lady passed away on 18 May 2018, She was born on 05 May 1986. Even if everyone

feel it was too early for her to leave but there is no way one can stand in God's place. She will forever be missed.

Far right: is Mr. Phathakahle Jali who passed away on 21 May 2018. He was an Untunjambili Mobile Clinic Operational Manager. He was born on 30 March 1977. the Department is loosing the productive staff through the unnatural way, he was shot down in his place of residence, this was a shocking event ever since some his colleagues rushed to the scene to witness the death. Dr. S. Dhlomo (KZN Minister of Health Dept.) visited the hospital as well as the Jali family in Nkandla to send his condolences. He will be missed.

Before a wink of an eye while everyone was still mourning for the two appearing in above pictures, the Enrolled Nurse F.J. Nilnela on the left hand side passed away. We are in the middle of 2018 and have already lost 3 staff members, this brings fear to the staff. We cast death away from Untunjambili, enough is enough. Ms. F.J. Ninela was born on 03 February 1976 and passed away on 18 June 2018.

Revelation 14:13
Then I heard a voice from heaven say, write this: "Blessed are the dead who die in Lord from now on" "Yes" says the Spirit, "thy will rest from their labor, for their deeds will follow them"
