Bringing Ubuhlebezwe Sub-District Health News To You

Q2 - September 2023

## Pharmacy and Oral Month Commemoration

Pharmacy Staff

Christ The King Hospital Pharmacy and Dental Departments visited Impiyamandla Community Hall at KwaMashumi on the 14th of September 2023 as part of pharmacy and oral health month commemoration.

This month is aimed

at educating the public on the role of pharmacists and pharmacy support personnel in delivering primary healthcare services to the community; promoting the uptake of immunisation and educating the public on adverse drug identification and reporting; and promoting antimicrobial stewardship (AMS), in-

cluding infection prevention and control (IPC). Oral Health Month is observed every year in September to raise awareness on dental hygiene issues, particularly two most common mouth problems which include cavities and gum disease.

# Foreword From The CEO

**Mrs S. W. Maseko**  
Chief Executive Officer

## Dear Readers

Quarterly review for Q2 2022/23 has shown remarkable improvement in efficiency indicators, we applaud our nursing and medical team for resilience in the provision of health care services to our customers in spite of staff shortage.

The institution has made strides in the reduction of child mortality there, is no child death in this quarter,

the support by District Specialist Pediatric, Nursing and Medical Management and the implementation of child health programmes is showing positive outcomes. It is essential that we sustain such excellent performance. Maternal mortality remains a challenge. It is imperative that ESMOE drills are conducted frequently and supervision in the implementation of protocols and guidelines to ensure that there is no woman dying whilst giving

birth.

The institution is experiencing financial constraints; the cost drivers being medicine, telephone, water and electricity as well as goods and services. We would to request our teams to continue to implement cost containment measures and prevent wasteful expenditure.

Let's continue to support healthy lifestyle activities i.e. the hospital choir every Tuesday at 14h00, soccer team which is currently number one in the district league and prepare for the district tournaments and gym every Wednesday at 14h00. These programmes are designed to ensure that we take care ourselves, so it is imperative to participate.

7

KwaMashumi Clinic hosted an open day for learners at Impiyamandla Community Hall on the 14th of September 2023. The purpose of this event was to create an awareness on issues school learners face and how to deal with them. Different stakeholders were invited including Ubuhlebezwe Municipality, Department of South African Police Services - Highflats, Vukuzithathe Organisation, Match Organisation, Department of Education, Department of Social Development to mention a few. Ms Lestoalo (PHC Supervisor) welcomed all members present. Sr Molefe (Operational Manager Nursing) explained the purpose of the day. Her Worship Ubuhlebezwe Municipality Mayor: E.B. Ngubo gave a message of support and thanked the clinic for this initiative and then there were different presentations from the invited stakeholders. Mgodi Primary School learners did a peer pressure awareness poem where they educated their peers about what peer pressure can do to school children. Sr Ngcongo was tasked to market the services offered by the clinic and Sr Dlamini did Mother and Child Women's Health presentation.

The Pharmacy and Dental departments were also present and they also did their awareness presentations. There were different entertainment items from the audience and refreshments were served.

# Pharmacy and Oral Month Commemoration

Christ The King Hospital Pharmacy and Dental Departments visited Impiyamandla Community Hall at KwaMashumi on the 14th of September 2023 as part of pharmacy and oral health month commemoration.

CTK Hospital Pharmacists and their assistants make a valuable contribution to the health and wellbeing of the people of Ubuhlebezwe Sub-District. From the pharmacist working to provide the medicines that treat illness to those pharmacists who make sure that patients in PHC and in the community receive the most benefit from their medicines, their involvement helps people to achieve and maintain health, which improves their quality of life. So, this September, Christ The King Hospital celebrates the hard work that pharmacists and their assistants do.

September is also National Oral Health Month. Christ The King Hospital Dental Department advises clients to take time to pay extra attention to their dental routine, particularly as two of the world's most common health problems affect the mouth – cavities (dental caries) and gum disease.

Gum disease ranks second only to the common cold in terms of prevalence, with an estimated 90% of South Africans experiencing the problem at some point.

It really is in your best interest to practice good oral hygiene.

Not only does it ensure a beautiful smile, but it is good for your health – gum disease has been linked to coronary heart disease, adverse pregnancy outcomes and diabetes. New research also shows that women with gum disease find it harder to conceive.

The team members each had a presentation for the attending clients. Mr Gumede (Pharmacist - Intern) did a presentation on antibiotics and stewardship, Mrs Khumalo (Pharmacist Assistant) presented on Central Chronic Medicines Dispensing and Distribution (CCMDD) programme and Ms Malanda (Pharmacist Assistsnt - Learner Basic) presented on storage of medicine. Ms Ndimande (Pharmacist) explained the extended programme on immunization and then Mr van Wyk (Pharmacist - Comm Serve) explained requirements for a career as a pharmacist.

Dr Dzanibe (Dentist) explained the importance of oral health and advised clients to ensure proper mouth hygiene. Ms Mazomba (Dental Assistant) demonstrated a proper way of teeth brushing and urged clients to brush their teeth at least twice a day. She also explained the effects of not taking care of oral health.

# Ndwebu Clinic Celebrates Women's Month

Ndwebu Clinic hosted a women's day event for both staff and patients on the 31st of August 2023. The event was hosted at the clinic's waiting area. The public holiday, marked every year on August 9 in South Africa, commemorates a historic protest of unjust laws under the then-apartheid regime. National Women's Day forms part of South Africa's Women's Month which provides an opportunity to pay tribute to the generations of women whose struggles laid the foundations for the progress made in empowering women and achieving gender equality to date.

There were different talks between staff and female patients on the issues they face on a daily basis as women. The clinic had organized gifts for patients who participated in the question and answer session. Sr Sibisi (Operational Manager Nursing) led the team during this event.

Picture 1 - Sr Qwabe givi gifts to patients. Picture 2 - Women talks  
Picture 3 - Questions and Answers session. Picture 4 - Women talks

# 'Boys To Men Camp' By Ixopo Clinic AYFS

Ixopo Clinic Adolescent Youth Friendly Services in partnership with uThingolwami Youth Foundation hosted a 'boys to men' camp from 10 to 14 July 2023 at the clinic premises.

This camp comes after the 2023 men's month. The purpose of Men's Health Month is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys.

This month gives health care providers, public policy makers, the media, and individuals an opportunity to encourage men and boys to seek regular medical advice and early treatment for disease and injury. The re-

sponse has been overwhelming with thousands of awareness activities in the globe.

Young boys from Ubuhlebezwe Sub-District joined this camp together with Ixopo Clinic AYFS staff and uThingolwami Youth Foundation. Different activities took place where these young men were educated and trained on manhood. The talks covered include, men's health, gender-based violence, teenage pregnancy, substance abuse etc.

Sr Mlangeni with three of the boys that attended the camp.

Discussions during the camp.

# KZN Legislature Visit At Ixopo Clinic

*KwaZulu-Natal Legislature team with the representatives from department of public works, KZN health head office, district office and other health institutions within Harry Gwala Health District Office.*

*Mr Dube from the KwaZulu-Natal Legislature delivering his speech.*

The KwaZulu-Natal Legislature visited Ixopo Clinic on the 16th of August 2023. The purpose of this visit was to assess the clinic's health functionality. The legislature was joined by the department of public works, head office, district office and other health institutions within the district. Mr Dube from KZN Legislature and his team were impressed by how the clinic operates, they gave praise to Mr Morajane (Operational Manager Nursing and his team at Ixopo Clinic) for how dedicated they are and how the clinic generally functions.

There was a walkabout around the clinic premises where Mr Morajane was showing the representatives different sections and areas where they require assistance. After the walk-

abouts, Mr Morajane gave an insightful presentation of the clinic's background and was assisted by Ms P. N. S Shezi (PHC Manager) in terms of identifying arrears where the clinic requires assistance.

There were several discussions where the legislature gave a chance to everyone who attended the debriefing to ask questions or make comments. The clinic's aim was to maintain the gains already made and further focus on interventions to accelerate health system effectiveness and further improve health outcomes and patient satisfaction.

Mr Morajane shared the success areas of the clinic from the last financial year and asked for more support since the clinic has grown a lot over the years.

*Mr Morajane leading the team during the walkabouts.*

# Ubuhlebezwe Sub-District Takes Services to Hlokozi Community

Ubuhlebezwe Local Municipality visited Ward 6, in Hlokozi as part of its Mandela Day celebrations on the 19th of July 2023.

In July, South Africa celebrates former President Nelson Mandela's birthday. 18 July has been declared Nelson Mandela International Day, South Africans we embrace the chance to celebrate Nelson Mandela's life for the whole of July. This gives everyone the opportunity to heed the call to action for people to recognise their individual power to make an imprint and change the world around them.

A global movement for positive change begins with small actions. As each person acts, they fuel momentum toward positive change, raising awareness and expanding the reach of Mr Mandela's values – fighting injustice, helping people in need and practicing reconciliation.

The department of health was one of the key players in this initiative. Christ The King Hospital and its Primary Health Care department took part in this project by bringing services closer to the community. There were different services that the institution offered; including, dental services, eye care, TB screening, pep smear screening, HIV/Aids screening, chronic screening, physiotherapy and dietetics services. The community came in numbers to make use of the services brought closer to them. Some were then referred to the nearest clinic and Christ The King Hospital for further assessment and treatment.

# 67-Minutes For Mandela Day

18 July, which is Nelson Mandela's birthday, was declared by the United Nations General Assembly (UNGA) as Nelson Mandela International Day in 2010. The celebration of this international day recognises and gives credence to the former President's commitment to human rights, conflict resolution and reconciliation.

It is an annual celebration of Nelson Mandela's life and a global call to action for people to recognise their individual power to make an imprint and change the world around them. A global movement for positive change begins with small actions. As each person acts, they fuel momentum toward positive change, raising awareness and expanding the reach of Mr Mandela's values – fighting injustice, helping people in need and practicing reconciliation.

The Mandela Day Campaign message encourages people to use 67 minutes of their time to support a chosen charity or serve in their local community. The 67 minutes symbolically represent the number of years the former President fought for human rights and the abolition of apartheid. Mandela Day is a call for action for individuals – for people everywhere – to take responsibility for changing the world into a better place, one small step at a time, just as Mr Mandela did.

**Picture 1** - From Left, Ms Mkhize, (Secretary to the CEO), Mrs Shoba (from Yhawehe), Mrs Zondeka, (CPC - IPC), Mr Dlamini (Asset Clerk), Mrs Dlamini From (PM 2242 ). From the back, representatives from the cleaning contractors and Mrs Getyengana (CPC - QA).

**Picture 2** - Staff collecting waste.  
**Picture 3** - Staff cleaning during the 67 minutes for Mandela Day.

Christ The King Hospital staff took part on the 67-Minutes for Mandela Day initiative by sparing their 67 minutes to clean outside the hospital premises. The team was led by Mr Mkhize (Public Relations Officer, Mrs Zondeka (Clinical Programme Coordinator - Infection, Prevention and Control) and Mrs Getyengana (Clinical Programme Coordinator - Quality Assurance). CTK cleaning contractors (Yhawehe Trading Pty Ltd led by Mrs Shoba and PM 2242 Supply and Project Led by Mrs Dlamini) also joined this initiative together with their staff.

# Nokweja Clinic Donates To The Dlungele Family

Nokweja Clinic staff together with PHC Management, Yhawe Trading Pty Ltd visited the Dlungele family at their home on 28 July 2023 after they received the news that the family had lost everything to fire. The staff then decided to donate whatever they could to assist this family in need.

Mr Dlungele is the chairperson of the clinic committee and has served the clinic with dedication. On the 23rd of July, the family was left helpless when they lost everything to fire. They were left shocked and unsure about what to do next. PHC Management asked the staff and contracting partners to bring meals or non-perishable groceries to help out in the interim. While they may never be able to replace items with sentimental value, sending money in any amount was a simple way to help the family rebuild their lives after a house fire.

# Breastfeeding Event at Ubuhlebezwe Municipality

**At the back:** Christ The King Hospital team with Ixopo Clinic staff  
**Front:** Ms N Madlala (Dietician), Ms K Ngubo (District Dietician) and Ms R Sorgenfrei (Assistant Director - Nutrition, KZN Health - Head Office).

Christ The King Hospital visited Ubuhlebezwe Local Municipality Staff on the 3rd of August 2023 to create an awareness for breastfeeding in celebration of the 2023 National Breastfeeding Week.

World Breastfeeding Week is celebrated every year across the world from August 1 - 7. This global campaign aims to raise awareness about breastfeeding and its advantages. Following a surge in the infant mortality rate due to a drop in the number of mothers who wanted to breastfeed, the initiative became essential. While everyone has the right to make their own decisions, breastfeeding is recommended by the World Health Organization (WHO) until a child turns two. This

World Breastfeeding Week, let's join hands and promote breastfeeding. It is the greatest outreach vehicle for the breastfeeding movement being celebrated in over 120 countries.

The theme for this year is **'Enabling Breastfeeding, Making A Difference For Working Parents'**. It will focus on breastfeeding and employment/work. It will showcase the impact of paid leave, workplace support and emerging parenting norms on breastfeeding through the lens of parents themselves. Target audiences including governments, policymakers, workplaces, communities and parents will be engaged to play their critical roles in empowering families and sustaining breastfeeding-

friendly environments in the post-pandemic work life. The theme is aligned with thematic area 4 of the WBW-SDG 2030 campaign.

World Breastfeeding Week aims to highlight the huge benefits that breastfeeding can bring to the health and welfare of babies and benefits to maternal health, focusing on good nutrition, poverty reduction, and food security. World breastfeeding week has the dual goal of improving the health of babies and promoting, protecting, and supporting the rights of women to breastfeed anywhere and at any time.

Mrs T Mhlwatika (Facility Mentor) who was the programme director for the event made the Ubuhlebezwe Municipality staff feel welcomed. Mr Dlamini from Ubuhlebezwe Municipality welcomed the CTK staff. Ms Andiswa Ngcobo (Dietician - Comm Serve) was tasked to deliver the purpose of the day, challenges during breastfeeding and expression & storage of breast milk where she demonstrated how breast milk should be stored. Ixopo Clinic staff was tasked with explaining antenatal care for working mothers and Sr Mkhize from maternity explained initiation of breastfeeding. Ms N Madlala (Dietician) explained what human milk bank is and encouraged the guests to donate breast milk. There was an item by the Community Health Workers.

# Dietetics Department and Gateway Clinic Host A Successful Breastfeeding Week Event

The National Breastfeeding Week Commemoration continued at Christ The King Hospital Assembly Point on the 10th of August 2023, where the staff started a march from Gateway Clinic to the wards and ended at the hospital assembly point. The march was for creating an awareness on breastfeeding. The staff together with the clients sang breastfeeding songs and had posters during the march.

The official programme started after the march where there were different talks by the staff to educate mothers and pregnant women on the importance of breastfeeding. The programme director was Mr Z Mkhize, Enrolled Nurse from Gateway Clinic Mrs Madladleni (Enrolled Nurse) was tasked with delivering the purpose of the day. Ms K Ngubo (District Dietician) was invited to inform the staff and clients about the upcoming launch of the district's human milk bank. There was a poem by the Community Health Workers encouraging breastfeeding. After all the talks and discussions, there was a competition for mothers that breastfeed and are ensuring that their children get the required immunisations.

Clients and staff members were then asked questions about what was discussed and were rewarded for their responses.

# Resuscitation Drill At Casualty

Christ The King Hospital Medical and Nursing staff did a resuscitation drill on the 17th of August at casualty. The purpose of this drill was to assess the hospital's readiness in case of an emergency. The drill was led by the Medical Management, Dr Mthiyane (Medical Manager), Dr Mkhize (Clinical Manager - OPD and Casualty) senior doctors, Dr Mohlomi and Dr Sosibo as well as Mrs Dlamini (Assistant Manager Nursing - OPD, Casualty and Operating Theatre).

The resuscitation drills are specifically designed action sequences intended to execute clinical interventions with minimal cognitive load in the setting of marked time pressure. These drills are tailored to respond to particular situations. They are carefully developed with thought, intention, and analysis of the available literature to consider the risks and benefits. In essence, the "thinking" is done in advance, so that during a true emergency the programmed cognitive and action sequence can be applied.

There were two cases including a baby case where doctors demonstrated how to handle these case. The medical and nursing staff

Picture 1 - Paediatric Case

**Picture 2** - Discussions with boy learners.

**Picture 3** - Paramedics arriving with a patient.

**Picture 4** - Team outside Mariathal Combined School hall after the event

Ixopo Clinic School Health Team hosted an awareness campaign on the 27th of July 2023. at Mariathal Combined School. The event was supported by Ixopo Clinic staff, Ixopo Clinic Adolescent Youth Friendly Services, Match, Love Life, uThingolwami Youth Foundation and Life Line. The purpose of this event was to continue with the men's month celebrations and to engage them through issues they face and providing them with valuable solutions.

The purpose of Men's Health Month is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys. This month gives health care providers, public policy makers, the media, and individuals an opportunity to encourage men and boys to seek regular medical advice and early treatment for disease and injury. The response has been overwhelming with thousands of awareness activities in the globe.

Learners were educated according to their gender as a purpose of discussing issues that they are specifically facing. The event was a great success because the learners found the sessions to be very educational and informative. The topics covered include; Teenage Pregnancy, Substance Abuse, Voluntary Medical Male Circumcision (VMMC), Contraceptives and Gender-Based Violence.

# Grade 12 Career Expo At Ixopo High School

Christ The King Hospital visited Ixopo High School on the 25th of August 2023 for a Grade 12 career expo.

A career expo is an exhibition event in which different industries and higher institutions of learning meet with potential students and where learners find more about careers and higher institutions of learning. It is South Africa's only national public exhibition that is designed to provide Grade 12 learners looking for a career or prospective students with the necessary tools to succeed in tertiary education and beyond.

The learners were be exposed to a variety of careers that are offered at different institutions. The aim was to provide learners with sufficient information that will assist them in making well informed career choices. There were Grade 12 learners from different streams that were invited and that had converged to the school hall; to find out more on the various career choices and bursaries that are available for those learners who are considering to pursue their tertiary studies at university level.

Dr Ngwenya (Medical Officer), Mrs Dotyeni (Chief Supervisory

Picture 1 - Consultations with Dr Ngwenya, Mrs Dotyeni and Mr Made.

Radiographer), Mr Made (Pharmacist), Mr Mhlongo (Assistant Director - Human Resource Management) and Mr Dlamini (Human Resource Development Practitioner) represented Christ The King Hospital where they interacted with different learners explaining to them different career fields within the health sector.

The learners were very responsive and eager to learn more about careers in the health industry.

# Grade 9 Career Expo At Jolivet Hall

Picture 1 - Team explaining career paths within the hospital.

Picture 2 - Mr Dlamini doing a presentation on behalf of CTK Hospital.

Christ The King Hospital visited Jolivet Community Hall on the

7th of September 2023 for a Grade 9 career expo. Different learners from diferent schools within Ubuhlebezwe Municipality were invited to this career exhibition. The CKT team was made of Chief Supervisory Radiographer, Pharmacist - Intern , three Professional Nurses, Human Resource Development

Practitioner and the Public Relations Officer. The team explained to learners careers within the hospital and the subjects to choose if they want to pursue such careers.

# Ixopo Clinic AYFS Attends 'Boys To Men' Talk

Ubuhlebezwe Municipality in partnership with The KZN Premier's Office and other stakeholders held a 'Boys To Men' talk on the 30th of August 2023. This event was held at....

This programme was implemented to groom men to face and fight the challenges they face on a daily basis. It involves older men and the young ones.

Sr Mlangeni from Ixopo Clinic Adolescent Youth Friendly Services attended on behalf of department of health where they were tasked to do a root cause analysis on the issues around gender based violence.

Different conversations were held by the stakeholders together with the attendees. The boys were offered a platform where they can hear other boys, and men, share their stories and understand that they are not alone.

**Picture 1** - Discussions during the event.
