**67 Minutes  
for Mandela  
Day**

"It can be said that there are four basic and primary things that the mass of people in a society wish for: to live in a safe environment, to be able to work and provide for themselves, to have access to good public health and to have sound educational opportunities for their children."

# 67 MINUTES FOR MAN-

Ward 9 Cllr Chonco & OSS team at Brick Yard.

Inspired by Nelson Mandela at his 90th birthday celebrations in London's Hyde Park in 2008 when he said: "It is time for new hands to lift the burdens. It is in your hands now." The 13-18 July 2015 was the Public Service Voluntary as part of the yearly tradition, Greytown Hospital in conjunction with Operational Sukuma Sakhe (OSS) embarked on various activities observing the 2015 theme "Food Security and Volunteerism".

Nelson Mandela has been making an imprint on the world for 67 years, beginning in 1942 when he first started to campaign for the human rights of all South African's. His life has been an inspiration to the world. By devoting 67 minutes recognizes our individual power to make an imprint and help change the world.

Marking an imprint July 17, Greytown Hospital Employee's visited the Dlomo family who reside at Mhlopheni area in Muden to give groceries and clothes donated by Greytown Hospital employee's, they then further planted a vegetable garden. The Greytown Hospital team later joined ward 09 OSS team in the continuation of the 67 minutes.

Colouring books, crayons, cake's, sweets, cold drinks, face paint and brushes was handed over to the Bantwana Bethu Play Park. Three families from Brick Yard received food parcels and blankets. During the visits health screening and health education was also done.

The management of Greytown Hospital thanked each employee who contributed and took part in the 67 minutes and advised that this should be part of our daily activities so to bring back uBuntu.

# WORLD HAND HYGIENE DAY

Staff protesting for clean hands

**Hand hygiene** is the most important and cost effective practise in Infection Prevention and Control. It can save lives and reduce length of hospital stay when done appropriately and consistently.

On the 5th of May 2015 we commemorated this day in Greytown Hospital. Initially we planned to go to the sport ground to do the hand hygiene relay but with the assistance of our supervisor we ended up doing it in the corridors. Each department had to line up at their entrance and do handwashing. Thereafter we went to Female Medical Ward and handwashing was done at bedside.

We sang songs on hand washing, and displayed posters of hand washing in different points. Health education was conducted to the clients in Out Patient Department and to all inpatients in different wards. Attendance was good and support was received from nursing and other health car workers. I.P.C team **“LIKES TO THANK YOU ALL”** keep up the standard of supporting each other.

# TEENAGE PREGNANCY PREVENTION AWARENESS

Sr. Dlane giving a talk on  
Teenage pregnancy

On the 25th of June, Pine street clinic launched a health day for the youth in the Umvoti Sub-district, where by various delegates from the department of Health conveyed strong messages about Teenage Pregnancy and where the youth can get help in order to prevent teen pregnancy/ terminate unwanted pregnancy. The audience were listening alternatively to Mrs Mdladla (Operational Manager) at Pine Street Clinic.

Izingane zethu bazali kumele ukuba si-funde ukubanika amathuba okuthi zibuze thina impela uma kukhona ezifisa ukuthi zicaci seleke kukhona. Ukuze sigweme abangani abazosho okunge sikhona. Sr. Dike furthermore warned teenager's that for a safe abortion visit your nearest health facility within 12 weeks of pregnancy. Never try a back street abortion because there are those individuals who are not professionally trained and are performing this abortions illegally.

"If you finish high school, get a job and get married before having children, you have 98% chances of not being in poverty (congratulations you have beat teenage pregnancy)." By Sr. Ndawonde, School Health Nurse.

# CHILD PROTECTION WEEK

**Audience at Pine Street Clinic**

On the 27th May 2015 the social worker (Miss Msomi) and occupational therapist (Miss Zweni) visited Pine street Clinic to educate members of the community about different types of abuse:

- Emotional abuse
- Physical abuse
- Sexual abuse

The main focus was on sexual abuse. Miss Msomi educated the community members about Rape, importance of reporting and what to do if you are being raped. The team wish to thank Pine Street and Gateway clinic staff and clients for allowing them the opportunity to educate and inform on child related issues that most often are not said.
