

Health Facility:	Year:
-------------------------	--------------

To be completed **monthly** by the **pharmacist/pharmacy assistant**. If **pharmacist/pharmacy assistant** not available then to be completed by the **operational manager** or a **senior professional nurse**. Please indicate which of the pharmaceuticals listed below are currently in stock either in pharmacy or in the Child Health Consulting Room. Final score for pharmaceuticals is based on availability of medications in pharmacy and **Child Health Consulting Room**. Calculate required monthly stock levels and record in stock column. Check that stock is available and not expired.

N (No) = not available or expired; **Y** (Yes) = available and not expired **Y = 1, N = 0**
