Wabalula nokuthi zingaphezu kuka 2000 izinhlobo zomdlavuzo ongaba sengcupheni yokuthi uphathwe ezinye zazo uma ubhema

ugwayi, kanti umuntu ohlala noma oba lapho kubhenywa khona naye uyaba sengcupheni yokugula.

**Provincial Oral and Dental Health Event**

Sisonke Health District invited more than 3000 people to Emadungeni Tribal Court to attend the MEC event that was held on the 4th of August 2007. The purpose of this event was to make people aware of oral and dental health.

Delivering her speech on this day MEC P Nkonyeni, emphasized that people must take care of their mouths. She made the community aware of dental problems,

Preventives measures and dental services that they can get in the following hospitals: EG & Usher, Christ The King, St Apollinaris, St Margaret, Rietvlei and Pholela CHC. She then reminded the community about the importance of celebrating and remembering the struggle of women as we all know that it is a women's month. She left garden implements for poverty eradication and tooth brushes/pastes for oral health.

## Sisonke Clinics are now maintaining their gardens

The garden has taken a new look ever since staff were workshoped on the new 5-bed planting plan. This plan involves planting a new bed every month so as to ensure continuous production of vegetables throughout the year. One of the clinics that the planting plan is being implemented successfully is Tsatsi clinic at KwaSani Municipality. Nutrition programme thanks the involvement of grounds men,

nursing staff, general orderlies and community health workers. The General orderly at Kilmun clinic in Ingwe Municipality has already implemented the 5-bed planting plan in the garden. She also works together with a group of community health workers who bring patients and community members to the garden.

## Human Recourses Development Section

Mrs ZR Dladla Human Resources Development Practitioner

Human Recourses Development Program is a mandate from Skills Development Act of 1998. It is aiming at developing skills of all people of South Africa and also aimed to redress the imbalances of the past in education, training and development of all employees. In Sisonke Health District there are various programmes in place to help developing skills in as many people as possible at every level with emphasis on NQF levels 1 to 4. There are many different programmes that

Are offered e.g. Learnerships that are granted to employees who have no post matriculation qualification. Internships for diplomats and graduates to assist them to gain experience. Orientation and Induction which should be implemented by all institutions to old and new staff members. All employees must be trained on EPMDS and all supervisors to ensure that the system is implemented effectively. Bursaries are offered for disadvantaged learners.
