WHAT CAN YOU DO TO STOP THE SECOND WAVE?

1. Download the COVID Alert South Africa app now and get notified if you are exposed to coronavirus.
2. Keep wearing a mask whenever you are in public.
3. Wash or sanitise your hands regularly.
4. Maintain a distance of one-and-a-half metres from other people at all times.
5. Meet outdoors or in a space with good ventilation.
6. Avoid crowds and gatherings.
