KWAZULU-NATAL COLLEGE OF NURSING

The **KWAZULU-NATAL COLLEGE OF NURSING (KZNCN)** is a public nursing college that is offering programmes accredited by the South African Nursing Council and Council on Higher Education and administered under the Department of Health in KwaZulu-Natal. The KZNCN is a single nursing college instituted by eleven (11) Campuses vastly located across the various districts within the Province.

KZNCN programmes specifically address the needs of KZN province and South Africa and the World in general, with a focus on professional, legal and ethical foundations of nursing. Students are guided by passionate academic staff to become competent nurse practitioners with scientific background.

Our programs are comprised of a theoretical and clinical component and students are placed in clinical facilities across the KZN province for clinical learning experiences as directed by the South African Nursing Council (SANC).

Location

Hyslop Road Pietermaritzburg

I am pleased to welcome you to KwaZulu-Natal College of Nursing (KZNCN) prospectus. In line with the department of health's vision, the KZNCN aspires to empower nursing students from all the KwaZulu-Natal communities: urban, peri-urban and deep rural areas, and strive to provide quality, accessible and affordable undergraduate and postgraduate nurse training and education.

Through our programmes, we endeavour to produce well-prepared generalist and specialist nurses/ midwifes clinicians and scholars who will be able to collectively enhance individual, family and population-based healthcare in a culturally diverse society. The ultimate goal of KZNCN is to produce nurses who are well-rounded and suitably prepared to take their place in the ever so dynamic health environment. We have a strong commitment in instilling the culture of life-long learning by ensuring that our students become confident and independent self-directed learners who have the skills and knowledge to succeed at our Campuses and beyond.

As a College within the Department, we pride ourselves through high standards and a supportive learning environment where our students' success and competencies are our overriding goals. The College provides quality educational experiences, underpinned with theoretical and practical facilitation for knowledge construction that ensures our students are ready for the world of work within and outside the health fraternity. Our dedicated academic and administrative support staff are always ready to provide cognitive coaching and scaffolding to students every step of the way, including academic and psychosocial support and guidance. This is demonstrated by the level of academic achievements gained by our students.

It is with great honour to share with our communities that the Diploma in Nursing Programme of KZNCN was accredited by the Council of Higher Education (CHE) and South African Nursing Council (SANC). The historical intake for this programme was in January 2020. We looking forward to further accreditation of new undergraduate and post graduate programmes the College intends offering.

If there is anything further that we can help you with, please don't hesitate to contact us on

Sindi.Mthalane@kznhealth.gov.za.

1.VISION, MISSION AND CORE VALUES

1.1 Vision

Leadership & excellence in nursing education through production of competent nurses and midwives/ accoucher capable of rendering optimal and quality health care to the KwaZulu-Natal province population and globally

1.2. MISSION

The mission of KZNCN is to provide accessible and affordable undergraduate and postgraduate education and training of nurses and midwives/accoucher competent to enhance individual, family and community-based health in a culturally diverse society.

The mission will be accomplished through:

Offering integrated and comprehensive nursing education programmes with clinical learning exposure and evidence-based approach to teaching and learning. Programmes offered are relevant and responsive to the current and future healthcare needs of the population and the country's burden of disease.

Employment of appropriately qualified and competent staff who are committed to offering/ implementing quality nurse education programmes.

Promotion of the integration of theory, practice and research to advance scientific and theoretical foundations of nursing for improving health outcomes at community, primary health care, hospital and specialised health care settings.

1.3. CORE VALUES

Honesty: A characteristic of being truthful, fair honest and morally upright.

Respect: Acknowledgement, consideration, appreciation and regard for the unique and different contributions made by all.

Accountability: The ability to take responsibility and be answerable for one's own actions.

Excellence: The state of continually striving towards achieving the highest standard and quality.

Integrity: Demonstration of sound moral and ethical principles and consistency that stand out even under scrutiny.

Trust: Maintaining clear and open communication and being trustworthy and dependable.

Creativity: Scholastic ability to develop innovative products.

Caring: Ability to transcend self and serve all people, and being considerate of the holistic nature of people and the complexity of the human condition.

Adaptability:

• An advertisement for nurse training posts appear in the local newspaper(s), local hospitals, clinics and KZN health website once a year - requirements of the training programme will be stipulated in the advertisement.

• Instructions in the advert are to be complied with e.g. regarding the information to be submitted and documentation to be uploaded with the application.

• It is not necessary to fill in application forms (Z83) at this stage.

• No hand delivered applications will be accepted or entertained.

• No applications are to be directed to the training institutions/hospitals or head office (Natalia), or the KwaZulu-Natal College of Nursing

• Ensure that the advertisement is read in its entirety especially with regard to responses to applicant

• Due to the large number of applications anticipated, only successful applications will be responded to.

• All shortlisted candidates will undergo a compulsory knowledge assessment, medical surveillance including a medical examination and verification of all documentation.

• The KwaZulu-Natal Department of Health will offer financial assistance to successful candidates in the form of a bursary.

• Any applicant who have previously benefited from the Department of Health's financial assistance for training will not be eligible for entry into the programme.

• Successful candidates will be required to sign an agreement with the Department of Health, will be expected to attend as a full time student, be prepared to attend lectures and participate in work integrated learning (WIL) in shifts which shall include public holidays, weekends and nights, within the KwaZulu-Natal Department of Health Hospital and Clinics as part of the programme requirements.

On completion of training, students will be registered with the South African Nursing Council in the relevant category in line with the Nursing Act (Act No. 33 of 2005).

4. ACADEMIC /INTERNATIONAL RECOGNITION

KZNCN is accredited to offer programmes in nursing and midwifery by CHE and SANC. Professional Nurses who completed basic and post basic programmes in KZNCN have been able to find employment abroad in different capacities as an indication of recognition of our product internationally.

5. RULES, POLICIES & REGULATION

Each candidate, on submission of the application for admission into training at KZNCN, is bound by the rules, policies, and regulations that govern the process for recruitment and selection of students including admission and registration processes once accepted.

Registered students are subject to the College policies, rules, code of conduct and relevant public service codes which affect their clinical training.

6. LANGUAGE

KZNCN is an English medium institution, therefore all official communication and tuition shall be in English.

7. MODE OF INSTRUCTION

KZNCN offers fulltime programmes and the mode of delivery is by contact through various learning and teaching methodologies. Each programme has work integrated learning component in accordance with the SANC prescripts.

8. ASSESSMENTS

There are continuous assessments in the form of formative tests, assignments and clinical evaluations etc. which contribute towards the year mark which contributes thirty percent towards the final examination mark. Summative assessments are conducted at the end of each semester and contribute seventy percent towards the final examination mark.

9. CREDIT ACCUMULATION

A student, once admitted into the programme may apply for credit transfer. If approved by the Senate, the student may be exempted from the module for which credit is granted. Exempted credits may not exceed fifty percent of the College programme credits if they were obtained from another institution.

10. ADMISSION POLICY

Accepted applicants (according to the KZNCN recruitment and selection policy) will be informed in writing and /or telephonically regarding the date of commencement of the course. A baseline medical assessment report of accepted candidates shall be required before registration. Registration details and fees payable will be available on the KZNCN and campus websites. Admission is subject to payment of applicable fees. Accepted applicants /students will be registered with the KZNCN and the SANC. A security check shall be performed in line with the recruitment and selection policy of the department of health (refer to student admission policy).

11. EXAMINATION POLICY

Assessment and moderation are integral parts that inform and strengthen teaching and learning. They are aligned to all the elements and purposes of the qualification and higher education. Assessment ensures that learning is measured against and developed towards the achievement of outcomes.

Assessment practices need to contribute to the maintenance of academic standard. Credibility is ensured by the following principles of fairness, reliability, validity, transparency; rigor and security through quality monitoring and moderation (refer to assessment and moderation).

12. QUALITY ASSURANCE

The quality assurance policy of KZNCN provides for quality promotion and high standard of accountability. Internal and external quality assurance processes ensures that learning and teaching are of quality and that assessments meet the minimum standards expected of an educational institution. This is achieved through internal audit and quality promotion process, internal and external moderation process and accreditation process by the statutory bodies.

13. RECOGNITION OF PRIOR LEARNING

A prospective student may apply for recognition of or prior learning (RPL) in line with the KZNCN RPL policy. The policy provides for:

RPL for credit: The candidate shall produce an academic record/transcript as evidence from the previous accredited higher education institution. The credit transfer shall only apply to the applicable relevant modules or programme.

RPL for access: to gain access to the programme shall require the candidate to fulfil the following conditions:

- Meet requirements for and be selected to undergo the RPL training programme offered to in-service nurses by the KZNCN

- Submission of portfolio of evidence
- Declared competent and issued with a RPL certificate of competency.

RPL for access apply to KZN Health department in-service nurses who do not meet the minimum senior certificate score required for admission into the programme.

14. ACADEMIC FEE STRUCTURE /STIPEND/ ACCOMMODATION

Application for admission into academic programmes is free. Once accepted, students are to register for modules and pay a minimal fee as per fee structure of KZNCN. Direct students in the undergraduate programme receive a bursary paid in monthly stipend to support them with their academic activities. In-service staff who are accepted into training are seconded to training by their institutions on full salary for the duration of training.

Accommodation fees where applicable are payable to the hospital in which accommodation in accordance with the KZN department of health fee structure.

15. ACADEMIC CALENDAR

Academic calendar commences in January each year and ends in December. The first semester commences in January and ends in June, and the second semester commences in February and ends in December with a recess period at the end of each semester.

16. STUDENT SUPPORT SERVICES

16.1. Student Counselling

Students have access to counselling services for personal, academic and social matters. An Academic Development Officer at each campus provides support to students and refers accordingly to professional specialist as necessary.

16.2. Sports and Recreation

Students have an opportunity to participate in sporting and recreational activities facilitated by the student representative council at each campus.

16.3. Student Governance

Each campus has an elected student representative council (SRC). The SRC represents student at all levels of governance in the College including Campus Board, College Senate and the College Council. The Provincial Student Representative Council (PSRC) is constituted by members of the campuses SRCs. The PSRC is responsible for addressing transversal student matters with the College management.

16.4. Available Facilities

Each campus has learning resource centers in the form of a library, computer laboratory and clinical simulation laboratory. These resources are available for use by students in accordance with each campus policy on utilization of the campus resources.
